

September 16, 2003

Here declares that the Electro-Voice<sup>®</sup> model Sx600PI Loudspeaker System has been tested and proven to meet, or exceed IEC 529/IP 44 criteria.

A perforated stainless steel grille layered with hydrophobic cloth protect against solid foreign objects of 1.0 mm or larger diameter. The grille, along with a composite enclosure, and sealed input panel with gland nut provide protection from water splashed from any direction with no harmful effects.
