The RE3-BPT is a small, lightweight yet robust UHF bodypack transmitter. It is easily worn and concealed, making it an ideal form factor for a wide variety of professional presentation and performance applications. From stand-up presentations, to theatrical and musical performances, to high-energy fitness and athletic situations, this sleek and rugged transmitter fits comfortably and accepts a wide variety of input devices.

The all-metal body is robust and durable, and operates on 2 AA alkaline or rechargeable NiMH cells. The tuning bandwidth affords generous frequency tuning options helping to avoid various sources of possible interference. The selectable output power (band specific) assists in overcoming the challenges of both long, or short, transmission ranges. The unique magnetic sliding latch and lock mechanism keeps the battery door closed securely and makes opening to access the batteries effortless. The ultrasonic sync function makes for a simple system setup by syncing the transmitter to the receiver frequency tuning and other functional data. Recharging contacts provide for functional use with the optional BC2 charging station allowing the NiMH rechargeable cells within two bodypack transmitters to be charged without removal.

### Technical specifications

<table>

| Available band names, tuning bandwidths, and carrier frequency ranges: | 5L: 36 MHz (488-524 MHz)  
5H: 36 MHz (560-596 MHz)  
6M: 10 MHz (653-663 MHz)  
8M: (823-865 MHz)*  
T: 3 MHz (803-806 MHz)  
*8M is split into two segments: 823-832MHz: 9MHz  
863-865MHz: 2MHz |
| Sync frequency: | Ultrasonic |
| RF power output: | Frequency band specific:  
5L (488-524MHz): Low 10mW / High 50mW  
5H (560-596MHz): Low 10mW / High 50mW  
6M (653-663MHz): Low 10mW / High 20mW  
8M (823-865MHz) 10mW  
T (803-806MHz): Low 10mW / High 50mW |
| Display by: | LCD + LED |
| Function controls: | Power, mute, group, channel, frequency, sensitivity adjustment, input level attenuation, RF power, auto off, key lock. |
RF stability:  $\pm 10kHz@F_c$

Modulation frequency shift:  Wideband FM $\pm 48kHz$ deviation

Harmonic radiation:  $< -50dBc$

Input jack:  4-pin mini jack

Battery:  2 x AA alkaline battery or NiMH rechargeable battery

Charging contacts:  Yes

Finish:  Black polyurethane paint

Dimensions (without antenna):
- Height: 3.2 in. (81.5mm)
- Width: 2.54 in. (64.5mm)
- Depth: 0.98 in. (25mm)

Net weight:  6.14 oz. (0.174 kg)

Gross weight:  8.29 oz. (0.235 kg)

For full operational information, download the RE3 installation manual at www.electrovoice.com.

**Licensing and certification declarations:**

**FCC information:**
Certified under FCC Part 74.
**FCC IDs:** B5DB1245L and B5DB1245H
**FCC IDs:** B5DB1246M

**Notice!**
Use of frequencies beginning at 653.000 MHz up to 657.000 MHz is covered under FCC Part 74 ID number B5DB1246M and requires an LPAS user license, however use of frequencies between 657.025 up to 663.000 MHz is covered under FCC Part 15, and do not require an additional user license. For more information, see https://www.fcc.gov/consumers/guides/operation-wireless-microphones.

**Responsible Party - U.S. Contact Information**
Bosch Security Systems, Inc.
130 Perinton Parkway
Fairport, NY 14450
USA
Tel: +1 (585) 223-4060
**Notice!**

Changes or modifications made by the user could void the user’s authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

---

**IC (Industry Canada)**

Certified in Canada by IC under RSS-102, RSS-210, and RSS-Gen

IC: 1321A-RE3BPT488, 1321A-RE3BPT560, and 1321A-RE3BPT653

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d’Industrie Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes:

1. l’appareil ne doit pas produire de brouillage, et
2. l’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.

---

**EU (European Union)**

The CE Declaration of Conformity can be obtained and downloaded from: www.electrovoice.com

This Equipment is in compliance with CE requirements and the following directives:

- 2011/65/EU RoHS Directive
- 2012/19/EU WEEE Directive
- 2014/53/EU RED Directive

Regarding (applies to) handheld transmitter RE3-HHT-5L (480-524 MHz), RE3-HHT-5H (560-596 MHz), RE3-HHT-6M (653-663 MHz), RE3-HHT-8M (823-865 MHz), and bodypack transmitter RE3-BPT-5L (480-524 MHz), RE3-BPT-5H (560-596 MHz), RE3-BPT-6M (653-663 MHz), and RE3-BPT-8M (823-865 MHz): This equipment is intended for use in wireless microphone applications.

Some countries in the EEA (European Economic Area) have restrictions placed on this equipment. If an EEA country is not listed it did not have any restrictions of the product at the time this document was published. The country codes used in regard to these restrictions are the following:

- Austria (AT), Belgium (BE), Cyprus (CY), Denmark (DK), Germany (DE), Greece (EL), Spain (ES), Ireland (IE), Iceland (IS), Latvia (LV), Lithuania (LT), Malta (MT), Norway (NO), Slovakia (SK), Sweden (SE) and United Kingdom (UK).

Listed below are these restrictions:

- Transmitters in the ranges, 488-524 MHz, 560-596 MHz, and 653-663 MHz require a license in the following countries: AT, BE, CY, DE, IE, LV, LT, SK, SE, UK.
• Transmitters in the ranges, 488 - 524 MHz, 560 - 596 MHz, and 653 - 663 MHz require the transmitter be used in TV white spaces in the following countries: AT, DK, IS, MT, NO, ES.

• Transmitters in the ranges, 488 - 524 MHz, 560 - 596 MHz, and 653 - 663 MHz if used outdoor will have geographical restrictions of operation in the United Kingdom (UK).

• Transmitters in the range, 823 - 865 MHz require a license for use in the 823 - 832 MHz range in the following countries: AT, BE, CY, EL, IE, LV, LT, UK.

• Transmitters in the range, 488 - 524 MHz may only use the range 510 - 524 MHz in Norway (NO).

Notice!

TV white spaces are gaps between operating TV broadcast stations where there are no active TV broadcasts.

Always consult your national authority before placing equipment into operation as requirements and spectrum usage can change.

AU and NZ

This device operates under an ACMA class license and must comply with all the terms of that license including operating frequencies.

Licensing information

Licensing: A ministerial license to operate this equipment may be required in certain areas. Consult your national authority for possible requirements. Changes or modifications not expressly approved by Electro-Voice could void your authority to operate the equipment. Licensing of Electro-Voice wireless microphone equipment is the user’s responsibility, and licensability depends on the user’s classification and application, and upon the selected frequencies on which it will operate. Electro-Voice advises the user to contact the appropriate telecommunications authority concerning proper licensing, and before selecting and ordering frequency bands.

Notices

Battery precautions

• Keep batteries out of the reach of children.
• Observe and install batteries according to the correct polarity as marked on the battery and the transmitter battery compartment.
• Do not expose the battery to excessive heat such as sunshine, fire, or other sources of high heat.
• Always consider the environment issues and follow local regulations when disposing of batteries.
• Remove depleted battery immediately.
• Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.
• Use only disposable LR6 (AA) alkaline or NiMH batteries.
• Do not mix new batteries with old ones in the transmitter at the same time.
• Do not use different battery types or models.
• Do not use a leaking battery. If battery leakage occurs, avoid contact with skin. If contact occurs, immediately wash thoroughly with soap and water.
• If battery leakage comes into contact with your eyes, immediately flush with water and seek medical attention.
• Remove and safely store batteries away from the transmitter when the transmitter will not be used for 60 or more days.
