REG000569002

This document certifies that Electro-Voice ZX1i products used in conjunction with the terminal cover accessory (TC-ZX1i) meet or exceed IP55 rating.

Tests were conducted according to IEC 60529 1989+A1:1999, Paragraph 13, IP5X Category 2 and Water Intrusion Test for IP X5 on product with equal design.

The results of the test showed no evidence of dust infiltration. There was evidence of water intrusion, but no loss of operational integrity. Thus meeting the requirement for IP55 rating.

Yours sincerely

Michael Kasten
