XLE181-FG Fiberglass 2-Way, High-Output, Very Compact Line-Array Element

- Very Compact, Lightweight
- Simple, Quick Integrated Rigging
- 120° Horizontal Coverage
- Bi-Amp or Full-Range Operation
- Neodymium Transducers

The XLE181-FG is a 2-way using a single 8 inch neodymium LF transducer and two neodymium 2 inch voice coil compression drivers combining through 2 hydra plane wave generators into a 120° x 10° waveguide. The FG models are fully-weatherized and fiberglass-coated. The XLE181-FG can be used in bi-amp or full-range modes using a sophisticated internal passive network. It is designed for use in arrays of four or more elements. The XLE181-FG delivers full bandwidth audio with precise, predictable coverage control. Integrated rigging with hinge points located correctly between array elements is simple to use and quickly provides uncompromised line array performance.

The XLVC weatherized family consists of two full-range systems with dual woofers, two full-range systems with single woofers and a subwoofer system. The dual-woofer versions include the XLD281-FG with a 120° horizontal coverage pattern and the XLD291-FG with a 90° horizontal coverage pattern. The single woofer versions include the XLE181-FG with a 120° horizontal coverage pattern and the XLE191-FG with a 90° horizontal coverage pattern. LAPS2 modeling software quickly provides array configurations and rigging information.

X-Line Very Compact weatherized models deliver unprecedented performance in outdoor venues in full exposure.

HF Passband: 2 x ND2S-8, 16 ohms
Connectors: Gland nut with 30 ft cable
Enclosure: 13-ply birch plywood with fiberglass and EVCoat
Grille: Stainless steel with powder coat paint and hydrophobic cloth
Environmental Specifications: IEC 60529, IP55
Dimensions (H x W x D): 9.90 in x 20.30 in x 14.52 in (251 mm x 516 mm x 369 mm)
Net Weight: 38 lb (17.2 kg)
Shipping Weight: 41 lb (18.4 kg)

1 Full Space Measurement of four (4) elements.
2 Full Space Measurement of HF section of four (4) elements, SPL adjusted for 1 m distance.
3 Use EV signal processing or download presets from Electro-Voice website.

Compatible System Solutions, Install Version:
XLE191-FG 90° Full-Range Line Array Element
XCS312-FG Triple 12 inch Cardioid Compact Controlled-Coverage Bass Element
Compatible System Solutions, Electronics:

- CP3000S Precision Series Power Amplifier
- CP4000S Precision Series Power Amplifier
- TG5 Tour Grade Power Amplifier
- TG7 Tour Grade Power Amplifier
- Dx46 Digital Sound System Controller
- N8000 NetMax 300 MIPS Digital Matrix Controller

Ordering information

**XLE181-FG Fiberglass 2-Way, High-Output, Very Compact Line-Array Element Black**
XLE full-range cabinet, fiberglass, 1 x 8", 2 x ND2, full-range or bi-amp mode switchable, 10° vertical angle, 120° horizontal angle, integrated rigging system, black
Order number **XLE181-FGB**

**XLE181-FG Fiberglass 2-Way, High-Output, Very Compact Line-Array Element White**
XLE full-range cabinet, fiberglass, 1 x 8", 2 x ND2, full-range or bi-amp mode switchable, 10° vertical angle, 120° horizontal angle, integrated rigging system, white
Order number **XLE181-FGW**

Accessories

**XLE-GRID-FGB Grid Fiberglass Black**
XLE system fiberglass grid for up to 16 x XLE181-FG/ XLE191-FG, black
Order number **XLE-GRID-FGB**

**XLE-GRID-FGW Grid Fiberglass White**
XLE system fiberglass grid for up to 16 x XLE181-FG/ XLE191-FG, white
Order number **XLE-GRID-FGW**

**XLCV-BGK-FGB Fiberglass Bottom Grid Kit Black**
Bottom grid kit for XLD and XLE fiberglass (-FG) systems, black
Order number **XLCV-BGK-FGB**
