

X-Line Compact XLC-BGK Bottom Grid Kit User Instructions

XLC-BGK Bottom Grid Kit

The X-Line Compact Bottom Grid Kit consists of the same rigging attachment parts as those integrated into the top of an XLC Loudspeaker. When used at the bottom of an XLC Loudspeaker Array along with an additional XLC-Grid (sold separately), the XLC-BGK allows for a column of X-Line Compact Loudspeakers to have a secondary rigging or anchoring point while being safely pulled back to desired angles.

When using the Bottom Grid Kit never exceed the rigging rating of the XLC loudspeaker systems used with it. These ratings account for stresses resulting from the load angles encountered in curved arrays. These ratings are the limiting factors. Consult the XLC Rigging manual, and/or the rigging label on the XLC loudspeaker systems for the ratings when used in curved arrays.

XLC-BGK (302028-001) Parts List			
Item	Quantity	Part Number	Description
1	2	560176-000	Button Bar Subassy
2	2	500674-000	Rear Swing Arm
3	2	560344-000	Quick-Release Pin
4	2	581041-000	Shoulder Bolt
