

HA-3 Handle Mounting Kit

The Electro-Voice HA-3 Handle Mounting Kit features a threaded attach point that allows for a Zx3 loudspeaker to be flown using a VSA-1 Strong-Arm (sold separately) to obtain desired orientation and sound coverage.

Fully Assembled with HA-3
Handle Mount and VSA-1
Strong-Arm Mount

WARNING: Suspending any object is potentially dangerous and should only be attempted by individuals who have a thorough knowledge of the techniques and regulations of rigging objects overhead. Electro-Voice strongly recommends that Zx3 speakers be suspended taking into account all current national, federal, state and local regulations. It is the responsibility of the installer to ensure that Zx3 speakers are safely installed in accordance with all such regulations. If Zx3 speakers are suspended, Electro-Voice strongly recommends that the system be inspected at least once a year. If any sign of weakness or damage is detected, remedial action should be taken immediately.
