

ZX3

HDC-3 Protective Cover for Zx3 Series Loudspeaker Systems

Key Features:

- Allows for Stacking
- Protects During Storage
- Rear Pocket for Model Identification
- Integrated Handle Opening

General Description:

The Electro-Voice® HDC-3 is a heavy duty cover that fits the Zx3. Designed to protect the enclosure during storage, the HDC-3 has heavy duty padding on all sides. HDC-3 utilizes durable 1000D Black Cordura laminated to foam.

The HDC-3 has a built-in hard top so that one enclosure can be safely stacked on top of another. This is accomplished with a two-ply corrugated top structure with internal rubber protective feet.

The rear of the HDC-3 features a transparent vinyl pocket that accepts normal cardstock inserts to help identify model and/or serial numbers. This is especially helpful with Zx3 as it is available in different horn patterns.

The side of HDC-3 has a circular opening that gives access to the handle on the enclosure. This makes it easy to transport the enclosure with HDC-3 maintaining its protective capabilities.
