(Complete model-no.)

(EMC-, LVD and/or RTTE-DOC-Ref.-No.)

**which has been tested by** .....: EVI Audio GmbH

**and multi-listing model** .....: ETX-15SP

(Complete model-no.)

Electro Voice

(Brand)

**Company to be shown on DOC**.....: Bosch Sicherheitssysteme GmbH

85630 Grasbrunn

Germany

are electrical, electronical and mechanical 100% identical:

Basic-model and multi-listing-model are not fully identical:

The differences are as follows:

ETX-15SP is an active subwoofer. Therefore high channel is not populated on the PCB, no HF horn used.

ETX-15SP uses a different enclosure (subwoofer) compared to ETX-15P.

ETX-15SP uses a different woofer compared to ETX-15P.
