

# EVOLVE90-DOLLY EVOLVE90-DOLLY EVOLVE

- Plywood dolly board with four heavy-duty casters
- Secure, quick detach hardware and lockable rear casters
- Able to operate system without removal
- Can be used together with the EVOLVE 90 subwoofer slip cover

The EVOLVE90-DOLLY is designed to transport the EVOLVE 90 subwoofer.

The dolly board features two butterfly twist latches which securely attach to the catch plates on the bottom of the subwoofer.

The dolly features large robust caster wheels and a 138 lb (62.5 kg) total weight rating. This means the dolly supports the weight of an assembled EVOLVE 70 system, allowing for safe assembly and operating once moved in place and caster locks engaged.

## Notice

Do not move the column loudspeaker system while assembled. Remove the column and the distance pole before transport.
