

“ We got what we needed for the price we wanted to pay, and solved all our problems in the process.”

– Jordan Cary, Technology Director

SOUND SYSTEM SOLUTIONS

MEDIUM HOUSE OF WORSHIP

Elevate the worship experience

High-performance audio, low-key looks

Our installation-dedicated loudspeakers are acoustically and aesthetically matched, so whatever combination of products you select, your system looks as good as it sounds – blending into the architecture while filling the room with superior audio quality.

Flexible options to suit your space and budget

We offer one of the industry's largest portfolios of product options, a range of choices to precisely address spaces of every size and shape with uncompromising performance – from ceiling speakers to line arrays.

Get your message across clearly

Achieve a clean, natural-sounding mix for voices and music, with the highest intelligibility and even coverage across every seat.

Ease of use for trained staff or volunteers

Production for services has changed a lot in 20 years, and your congregation's expectations are high. Our solutions achieve the ideal balance of sophisticated performance and simple operation, via intuitive software control interfaces.

An investment that lasts

Legendary performance and reliability from two of the most trusted names in HOW sound. We offer proven product solutions with the added value of the industry's best customer support.

MEDIUM HOUSE OF WORSHIP

EXAMPLE FOR 4,000 – 6,000 FT² (1,200 – 1,800 M²)

System overview

Two arrays of four EVA loudspeakers serve as mains to cover the room, with low-frequency support from four EVA subwoofers.

System benefits

Line-array performance for an entry-level price.

Hidden internal rigging combines streamlined aesthetics with easy set up.

Economic concept with up to six EVA modules driven from a single C series amp channel (optional attenuation module).

Control a multi-amplifier system remotely through one system software.

Integrate the audio with a control system with GPIO and remote on/off.

DYNACORD | AMPLIFIERS

1x C3600FDi (mains)

2x C3600FDi (subs)

ELECTRO-VOICE | LOUDSPEAKERS

8x EVA-2082S (mains)

4x EVA-2151D (subs)

If you need it, we've got it

The EV-Innovation family of loudspeakers is designed to specifically meet the diverse requirements of installed house of worship systems. EV-Innovation currently consists of five system formats: compact two-way (EVC), horn loaded (EVH), front loaded (EVF), line array (EVA) and ultra-compact (EVU).

Models from each series may be mixed and matched for consistent performance across any installation, providing system designers with complementary building blocks to address the needs of a wide range of venues and acoustical challenges.
