EV Electro-Voice

ZLX

- ZLX-G2 is the next generation of the best-selling pro-audio loudspeaker series from Electro-Voice

- Increased maximum SPL output and extended frequency response

- Robust and ergonomic design for day-to-day durability and portability

- Recommended to use with Dynacord DSP power amplifiers

- SONICUE integration - optimized speaker settings for best performance
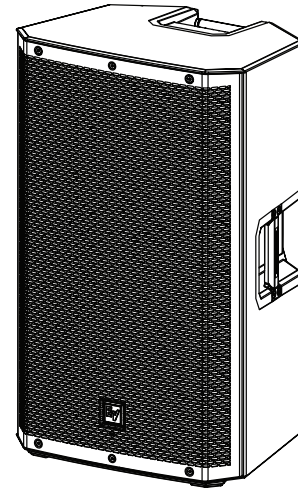

The new ZLX-G2 professional audio loudspeaker series is the next generation of the best-selling speakers from Electro-Voice, which raises the standard for performance and features in its class.
The ZLX-G2 series is offered in 15-inch, 12-inch, and new 8-inch woofer sizes, both powered and passive variants.
ZLX-G2 loudspeakers offer the best-in-class acoustic output. Electro-Voice-patented Signal Synchronized Transducers (SST) baffle design ensures improved bass, small size, and even coverage across all frequencies.
ZLX-G2 series features a 55-degree monitor angle. 12 and 15-inch models additionally include a "kickback" 23-degree monitor angle.
ZLX-15-G2 uses industry standard NL4 connections. The two NL4 connectors are in parallel and pass through all pins.
For optimal acoustics and performance, ZLX-15-G2 is recommended to be used with a Dynacord DSP power amplifier programmed with the appropriate speaker settings included in the EV Speaker Database for SONICUE.
ZLX-G2 series accessories such as padded covers, a U-bracket for mounting 12- and 15-inch models, a truss clamp adapter for 8-inch models, and universal wall-mount brackets compatible with all models are available.
